

Las Vegas Briefing:

Big Dogs: 50 seconds

Small Dogs: 55 seconds

The object is to accumulate as many points in 60 seconds by running sequences of varying point value. Time starts when the team crosses the starting line to any chosen sequence. To get points for a sequence the dog must complete the sequence without fault.

Knocked bars, missed contacts, and off courses are faulted. Weaves are not, you are just wasting time if you need to fix them. If a dog faults an obstacle, the entire sequence has been lost. You must restart any sequence eligible for point accumulation behind the line. If you dog knocks a bar, that sequence is then ineligible. No points are given for partially completed sequences.

Scoring is points then time. Time is for tie-breaking purposes only. When the whistle blows at 50 or 55 seconds, run back across the finish line to stop the clock.

Scoring:

When a team completes a sequence without faulting, the number of points is then awarded, the judge will call out the correct number of points upon completion.

Sequence 1 is 5 points

Sequence 2 is 10 points

Sequence 3 is 20 points

In addition to the points you earn for completing a sequence, points may also be doubled and tripled as follows:

	Sequence 1 – 5 points	Sequence 2 – 10 points	Sequence 3 – 20 points
Two of a kind Face value x 2	$10 \times 2 = 20$	$20 \times 2 = 40$	$40 \times 2 = 80$
Three of a Kind Face value x 3	$15 \times 3 = 45$	$30 \times 3 = 90$	$60 \times 3 = 180$
Flush (all 3 sequences once) Face value x 5	$35 \times 5 = 175$	$35 \times 5 = 175$	$35 \times 5 = 175$
Straight Flush (3 sequences twice) Face value x 10	$35 \times 10 = 350$	$35 \times 10 = 350$	$35 \times 10 = 350$

If you get a two of a kind plus a three of a kind, for example, the scores are added together.
