

BEAT THE CLOCK Briefing

Start with the table. Then perform each group of obstacles as numbered. If a fault is called, perform the table again (on and off, no performance required), then return to the beginning of the faulted group and continue. All partial points earned in the faulted sequence will be lost.

Every obstacle except the table earns the team 10 points.

After the last obstacle of the last group, finish on the table.

Faults: knocked bars, missed contacts, off-course.

Time: 60 sec. small dogs, 55 seconds big dogs.
