

**Heinz 57**  
 Heinz 57 is a points accumulation game where the team has to accumulate exactly 57 points as quickly as possible. The Aframe is the doubling obstacle and may not be taken back to back. If the Aframe is faulted there is no penalty but another obstacle must be successfully completed before it can be attempted again. The table ends point accumulation and is live at all times. Any points accumulated over 57 are subtracted from 57 to determine the dogs final score. Faulted obstacles may be repeated for points.

**Scoring:**  
 jumps-1 point  
 tunnels, tire- 2 points  
 dogwalk -3 points  
 weave poles-5 points  
 Aframe-doubling obstacle

Point accumulation time:  
 60 seconds
